

August 27, 2020

The National Collegiate Judo Association is dedicated to supporting collegiate Judo in the United States. We cannot achieve the moral codes or Judo principle of mutual benefit if any member of our community is not treated with dignity and respect. We support the Black Lives Matter movement and efforts to end racism, sexism, and the abuse of power from those in authoritative positions. Judo is a way of life. We hold ourselves and each other accountable because if one of our member groups is treated unfairly all of our groups are impacted.
